

Strategic Priorities 2016 - 2018

Maria College will provide high quality, affordable, career-oriented higher education for all those seeking it, with a special concern for women, minorities, adults, the economically disadvantaged and other non-traditional populations.

Our Strategic Priorities:

Data Reporting & Forecasting:

Ensure new technologies provide the data needed for decision-making by management and sound exercise of fiduciary duties of care, loyalty and obedience by the board.

Mission, People & Culture

Ensure a transparent and effective organizational structure and clear and concise personnel policies. Ensure that organizational behavior is consistent with the charism of the Sisters of Mercy.

Student Success:

Design and launch a Student Success Center to fully deliver our mission as an opportunity college. The Student Success Center will be a dedicated and organized way for us to increase our support for student persistence and ultimately increase retention and graduation outcomes.

Academic Programs:

Ensure current academic programs are aligned to market needs and produce graduates who are both marketable and employable. Identify and launch new programs aligned to market needs and Maria College's niche.
